## Flax seeds are source of Linseed Oil

**Oil painting** is the process of painting with pigments with a medium of drying oil as the binder. Commonly used drying oils include linseed oil, poppy seed oil, walnut oil, and safflower oil. The choice of oil imparts a range of properties to the oil paint, such as the amount of yellowing or drying time. Certain differences, depending on the oil, are also visible in the sheen of the paints. An artist might use several different oils in the same painting depending on specific pigments and effects desired. The paints themselves also develop a particular consistency depending on the medium. The oil may be boiled with a resin, such as pine resin, to create a varnish prized for its body and gloss.

# Italy discovers canvas in 1400s (Bellini, oil on canvas)

The introduction of canvas as a support for painting, brought about by Venetian painters who developed and popularized its use, was a giant step forward in the history of art. Canvas possessed numerous advantages compared to traditional painting supports: it was more resistant to damp than fresco painting, and at the same time it permitted larger formats than wooden panels, it was less costly and less prone to deterioration (cracking, insect damage, etc.) and, as it was lighter and could be rolled up, it was easier to transport.

Franciscan Church in Venice "Frari"

The Assumption of Mary was a Catholic doctrine that remained optional in the early 16th century; it was not declared an article of faith until 1950. The Franciscan order were always promoters of this and other aspects of Marian theology, in particular the related doctrine of the Immaculate Conception of Mary, then still a matter of live controversy. The doctrine held that the body of the Virgin Mary was "assumed" or moved physically into heaven "at the end of her earthly life". Most Catholics believed that this took place after a normal death (usually three days after in tradition), but some that Mary was still alive when it happened, a question that Munificentissimus Deus in 1950 was careful not to settle. At the base of the picture, glimpses of Mary's stone sarcophagus can be discreetly seen, allowing those believing in an assumption before death to ignore it.
